

Armen Arakelyan

SENIOR SOFTWARE ENGINEER

arakmen88@gmail.com

PROFESSIONAL SUMMARY

Senior software engineer with more than 11 years of experience developing backend and systems software across Java and C/C++ technology stacks. Experienced in owning features end-to-end, including design, implementation, code review, automated testing and production defect resolution, with a focus on maintainability, performance, code quality and reliable delivery.

CORE EXPERTISE

- Backend development
- Systems programming
- Java application development
- C and C++ development
- Object-oriented programming
- Software design patterns
- Feature design and implementation
- Legacy-system modernization
- Code review
- Unit testing
- Automated testing
- Functional testing
- Production defect investigation
- Performance and maintainability
- Cross-platform development

LANGUAGES AND TECHNOLOGIES

Java | C | C++ | Python-based test automation | SQL | Tcl | STL | PostgreSQL basics

TESTING AND DEVELOPMENT TOOLS

JUnit | cmocka | Git | CVS | Perforce | Jenkins | GDB | pgAdmin | DataGrip | Postman | Review Board | Jira | Bugzilla | MKS | Coverity

PLATFORMS

Linux | macOS | Windows

PROFESSIONAL EXPERIENCE

VMware / Broadcom

Jul 2020 - Apr 2026

Senior Engineer, ICD3 | Nov 2023 - Apr 2026

Member of Technical Staff III | Jul 2020 - Nov 2023

VMware was acquired by Broadcom in November 2023.

- Worked as a senior individual contributor on a backend engineering team.
- Developed and supported VMware Operations tooling for infrastructure monitoring, analytics and IT operations.
- Contributed to Green Score and sustainability functionality.
- Worked on password-policy functionality.
- Developed audit-logging mechanisms.
- Investigated and fixed product defects.
- Owned backend features across implementation, review and automated testing.

SCDM

Aug 2018 - Apr 2020

Senior Software Engineer | Aug 2018 - Apr 2020

- Developed backend functionality for a Java web application used for theoretical pricing of non-ABS securities.
- Designed and implemented new backend features.
- Diagnosed and resolved production defects.
- Conducted peer code reviews.
- Contributed to engineering practices and code quality.

Energize Global Services

Jan 2015 - Jul 2018

Software Engineer | Oct 2015 - Jul 2018

Junior Software Engineer | Jan 2015 - Sep 2015

- Developed embedded point-of-sale terminal applications for transaction processing.
- Implemented customer-specific product functionality.
- Ported core modules from C to C++ as part of a modernization effort.
- Created unit tests with the cmocka framework.
- Worked with an internal Python automation harness.
- Performed automated and manual release testing.
- Participated in code review and product bug fixing.

Mentor Graphics Armenia

Apr 2013 - Dec 2014

Junior R&D Engineer | Jul 2014 - Dec 2014

R&D Intern | Apr 2013 - Jun 2014

- Worked on the Place & Route database layer inside an EDA toolchain.
- Implemented enhancements and resolved software defects.
- Investigated Coverity static-analysis findings.
- Ported Tcl procedures to C++.
- Supported floorplanning and placement implementation.

CQG MA

May 2012 - Apr 2013

SQA Intern | May 2012 - Apr 2013

- Worked on quality assurance for order-processing tools in a trading application.
- Created test strategies.
- Performed manual, system and release testing.
- Analyzed application logs.
- Ran and analyzed automated regression tests.
- Reported and validated defects.
- Improved a Python-based test-automation harness.
- Performed high-availability testing.

EDUCATION

Master's Degree in Computer Science

Yerevan State University | Department of Informatics and Applied Mathematics | 2012-2014

Bachelor's Degree in Computer Science

Yerevan State University | Department of Informatics and Applied Mathematics | 2006-2010

LANGUAGES

Armenian - Native | Russian - Fluent | English - Good | French - Basic
