

Tigran Torgomyan

SENIOR MOBILE & FULL-STACK ENGINEER

tigran.torgomyan@gmail.com

PROFESSIONAL SUMMARY

Senior mobile and full-stack software engineer with more than 11 years of professional development experience. Specializes in iOS applications while also working across modern web frontends and backend services. Experience includes healthcare, motion analysis, analytics, IoT, retail and financial-assistant products.

CORE EXPERTISE

- Native iOS development
- Mobile application architecture
- Full-stack product development
- Web frontend development
- Backend API development
- REST API integration
- WebSocket integration
- Mobile security
- Data encryption
- Accessibility
- Codebase modernization
- Third-party SDK integration
- Reusable component development
- Build automation
- Analytics interfaces
- Healthcare applications
- IoT companion applications
- Motion and posture analysis

MOBILE DEVELOPMENT

Swift | Objective-C | UIKit | SwiftUI | AppKit | Xcode | Swift Package Manager | RESTful APIs | WebSockets | LiDAR | Point-cloud processing | MVC | MVVM | MVP | VIPER

FRONTEND DEVELOPMENT

JavaScript | TypeScript | React | Next.js | Redux | HTML | CSS

BACKEND DEVELOPMENT

Node.js | Python | FastAPI | Django | Flask | Ruby on Rails | ASP.NET | REST APIs | WebSockets | AWS Lambda | Prisma | PostgreSQL | SQL

ADDITIONAL LANGUAGES AND TECHNOLOGIES

C | C++ | C# | XML | Git | SVN | Visual Studio | VS Code

PROFESSIONAL EXPERIENCE

Spesna / CareIntel

Jul 2025 - Present

Senior Software Engineer | Jul 2025 - Present

- Worked on an iOS application designed for therapists.
- Used the iPhone LiDAR sensor to capture range-of-motion data through point clouds.
- Contributed to calculations involving human joint angles, gait and posture analysis.
- Developed the frontend system for patient evaluations and therapy data.
- Implemented AWS Lambda functions and FastAPI services for scalable data processing and integration.

Joocolab / insait.io

May 2024 - Jul 2025

Senior Software Engineer | May 2024 - Jul 2025

- Worked across frontend and backend development.
- Implemented security rules for a chatbot.
- Improved analytics charts and related interfaces.
- Used Next.js on the frontend and Node.js on the backend.

Marktguru

Apr 2024 - Present

Senior Software Engineer | Apr 2024 - Present

- Developed new features and modernized code for Marktguru and Bonsy applications.
- Improved build automation.
- Worked on data encryption and accessibility functionality.
- Contributed to Marktguru, a digital-leaflet and cashback application with shopping-list support.
- Contributed to Bonsy, a virtual financial assistant using receipt scanning and analytics.

Fimetechn

Feb 2020 - Apr 2024

Senior Software Engineer | Feb 2020 - Apr 2024

- Redesigned and improved the security of the Moxie Parent iOS application.
- Worked on an iOS companion app for an IoT robot.
- Contributed to backend systems using Ruby on Rails, Node.js, Django and Flask.
- Contributed to React and TypeScript frontends.
- Developed Python tools for Telehealth video synchronization and data processing.
- Contributed to a macOS application used for Moxie content creation.

Ogma Inc.

May 2014 - Feb 2020

Development Team Lead | Jan 2017 - Feb 2020

Software Engineer | May 2014 - Jan 2017

- Worked on multiple iOS applications, including CityNabz, GoToMyFlight, AWorks, DataHub and CNW Mobile.
- Mentored junior developers.
- Contributed to .NET and Node.js backend development for integrated applications.
- Redesigned and extended existing mobile applications.
- Developed applications for MNX Global Logistics, CityNabz and AskZuma.
- Built reusable components.
- Integrated third-party SDKs.
- Supported onboarding and training of new developers.

ADDITIONAL SCIENTIFIC BACKGROUND

Researcher | Institute of Molecular Biology NAS RA | Jul 2007 - Feb 2015

Conducted research involving the analysis of blood samples and different cancer types.

SELECTED APPLICATION PORTFOLIO

Markt guru | Bonsy | Moxie Parent App | GoToMyFlight | AWorks | Able Freight DataHub | CNW Mobile | AskZuma

EDUCATION

Ph.D. in Molecular Biology and Cancer Research

Institute of Molecular Biology NAS RA | 2008-2012

Master's and Bachelor's Degrees in Biophysics and Bioinformatics

Yerevan State University | 2002-2008

COURSES AND INTERSHIPS

OKC | Feb 2014 - May 2014

C# | JavaScript | MSSQL | HTML | CSS | Objective-C | Swift | iOS

Microsoft Innovation Center | May 2013 - Feb 2014

C# | C++ | SQL | Object-Oriented Programming | Design Patterns

LANGUAGES

Armenian - Native | English - Fluent | Russian - Fluent
