

Zori Sargsyan

SENIOR QA AUTOMATION ENGINEER

PROFESSIONAL SUMMARY

Senior QA automation engineer with more than 10 years of quality assurance experience. Specializes in designing and maintaining automation frameworks, implementing automated test cases and reducing repetitive manual testing effort. Background covers mobile, web, API, functional, regression and performance testing.

CORE EXPERTISE

- Test automation architecture
- Automation framework development
- UI test automation
- Mobile test automation
- API test automation
- Functional testing
- Regression testing
- Test-case design
- Automated test execution and analysis
- Test reporting
- CI integration
- Performance and load testing
- Manual-to-automation transition
- Bug reporting and verification

TECHNOLOGIES AND TOOLS

Java | Selenium | Appium | UI Automator | Rest Assured | TestNG | Spock Framework | Cucumber | Robot Framework | JMeter | Gatling | Git | Jenkins | TeamCity | Maven | Gradle | Jira | Confluence

PROFESSIONAL EXPERIENCE

Senior QA Automation Engineer

Dexatel CJSC | Jul 2021 - Present

- Validates development tickets and automation requirements.
- Reviews and analyzes test scenarios.
- Develops and maintains test-automation frameworks.
- Implements and automates test cases.
- Runs and analyzes automated tests.
- Produces test summaries and reports.
- Maintains automation scripts and related jobs.

QA Automation Team Lead

Webb Fontaine | Jul 2020 - Jan 2021

- Developed and improved test-automation frameworks.
- Investigated technologies for automation projects.
- Implemented automated test cases.
- Helped team members plan and complete their tasks.

QA Automation Engineer

Webb Fontaine | Jul 2019 - Jul 2020

- Developed test frameworks.
- Improved existing automation frameworks.
- Implemented automated test cases.

QA Automation Engineer

Instigate Mobile CJSC | Jul 2016 - Jul 2019

- Reviewed test scenarios and automation requirements.
- Developed test frameworks.
- Implemented automated test cases.
- Ran and analyzed automated tests.
- Produced test summaries and reports.

QA Analyst

Instigate Mobile CJSC | Jul 2014 - Jul 2016

- Worked on functional testing for mobile and web applications.
- Covered iOS, Android, Amazon and Windows platforms.
- Created and manually executed test cases.
- Performed regression testing and bug verification.
- Reported defects and test results.
- Supported QA teams of 2-4 members.

QA Engineer

Instigate Mobile CJSC | Dec 2013 - Jul 2014

- Manually tested a multi-platform action-adventure game.
- Executed test cases and performed regression testing.
- Conducted playthrough and ad-hoc testing.
- Created, verified and reported defects.

QA Engineer

Instigate Design CJSC | Sep 2012 - Dec 2013

- Tested a parallel-programming and chip-design tool.
- Reported software defects.
- Automated tests using Tcl.

QA Tester - Freelance

Testlio | Oct 2015 - Dec 2020

- Tested more than ten mobile applications, including Microsoft Outlook and Microsoft To Do.
- Performed functional testing.
- Reported issues and test results.
- Performed bug verification.

EDUCATION

State Engineering University of Armenia

Bachelor's Degree in Engineering, Information Systems | 2006-2010

ADDITIONAL TRAINING

Instigate Training Center

Software Engineer program | Jun 2012 - Sep 2012
